Welcome Message

Dear All,

The 2nd International Congress and Expo on Cardiology will be held during September 20-21, 2018 at Toronto, Canada under the theme of “Advances in Clinical Cardiology and Recent Research on Future of Cardiac Health” Which includes Keynote presentations, Oral talks, Poster presentations and Exhibitions.

Cardiology-2018 will also provide the excellent opportunity to meet experts, exchange information, and strengthen the collaboration among Directors, Researchers, Associate Professors, and Scholars from both academia and industry.

Cardiology-2018 is anticipating participants from 40 and more countries across the globe and the two day conference will provoke plenary sessions, Keynote speeches, Poster, and Oral presentations. This program provides two days of robust discussions on recent advancements and new strategies for development of new materials for global requirements.

Conference Objectives:

- To facilitate opportunities for networking, collaboration and exchange of ideas with internationally renowned leaders in Cardiology research.
- To identify research and practice based innovations in optimizing Cardiology and development.
- To debate gaps and priorities for sustainable development in optimizing Cardiology research and development.
- To discuss and debate the challenges and opportunities in the new era of optimizing Cardiology research and development reforms.
- To identify opportunities for evidence-based practice in optimizing Cardiology research and development.

We look forward to seeing you in Toronto, Canada...!!!

Best Regards
Cardiology Organizing Committee

Conference Highlights

The Scientific Federation brings you an immense opportunity to be a part of scientific acceleration to world class personalities, young scholars, scientific delegates and young scientists to join in this forum to utilize the expertise and novelties that brings a new era for innovations in the field of Cardiology which brings well versed scrutinizers at one place. It provides a platform to have open discussions, knowledge sharing and interactive sessions with field experts at Cardiology-2018. We request you to submit a brief idea or abstract of your talk/presentation/symposium/workshop according to your session interest.

- Current research in Cardiology
- Clinical Cardiology
- Interventional cardiology
- Transcatheter aortic valve replacement
- Coronary atherectomy in severely calcified lesions
- New concepts in the pathogenesis and treatment of coronary artery disease
- Electrophysiology: sudden death, arrhythmias and device therapy
- Pediatric cardiology and cardiac surgery, congenital heart disease
- Arrhythmia i: diagnosis, drug therapy, ablation
- Lipids, obesity, metabolic syndrome and diabetes
- Cardiology - Future Medicine
- Cardiac Diagnostic & Tests
- Novel approaches for diagnosis and treatment
- Cardiac Remodeling, Heart transplantation

For Abstracts Submission:

Conference sessions will bring you the latest strategies, research, and best practices to improve outcomes through quality, safety and staffing.

Chair of Cardiology-2018

Deepak Puri

Executive Director and Head Cardiovascular Sciences,
IVY Healthcare, India

Organizing Committee Members

Rachad Mounir. Shoucri
Royal Military College, Canada

Shunji Sano
UCSF Benioff Children's Hospital, USA

Tomasz M Kameczura
Rzeszów University, Poland

Amal El Sisi
Cairo University, Egypt

DeLisa Fairweather
Mayo Clinic at Florida, USA

Pollen K.F. Yeung
Dalhousie University, Canada

Wellnhofer Ernst
German Heart Center & Charité
University Medicine Berlin, Germany

Samer Ellahham
Cleveland Clinic, USA

Glimpses of Previous Conferences

About Toronto

Toronto is the capital of the Canadian province of Ontario. It is located within the Golden Horseshoe in Southern Ontario on the northern shore of Lake Ontario. With 2,731,571 residents in 2016, it is the largest city in Canada and fourth-largest city in North America by population. Also in 2016, the Toronto census metropolitan area (CMA), the majority of which is within the Greater Toronto Area (GTA), had a population of 5,928,040, making it Canada's most populous CMA. A global city, Toronto is a Centre of business, finance, arts, and culture, and is recognized as one of the most multicultural and cosmopolitan cities in the world.

Indigenous peoples have travelled through and inhabited the Toronto area, situated on a broad sloping plateau interspersed with rivers, deep ravines, and urban forest, for more than 10,000 years. After the broadly disputed Toronto Purchase, when the Mississaugas surrendered the area to the British Crown, the British established the town of York in 1793 and later designated it as the capital of Upper Canada. During the War of 1812, the town was the site of the Battle of York and suffered heavy damage by U.S. troops. York was renamed and incorporated as the city of Toronto in 1834, and became the capital of the province of Ontario during Canadian Confederation in 1867.

Important Dates

Abstract Submission Opens: September 15, 2017

Registration opens: September 30, 2017

Early bird registration: May 28, 2018

On spot registration: September 20, 2018

Venue

Holiday Inn Toronto International
Airport 970 Dixon Road,
Toronto, ON M9W 1J9, Canada.
