## Welcome Message

Dear All,

Scientific Federation invites all the participants from all over the world to attend **Global Summit on Geological and Environmental Engineering** during **September 27–28, 2018 at Madrid, Spain** which includes Keynote presentations, Oral talks, Poster presentations and Exhibitions.

**GSCEE-2018** will also provide the excellent opportunity to meet experts, exchange information, and strengthen the collaboration among Directors, Researchers, Associate Professors, and Scholars from both academia and industry

Global Summit on Geological and Environmental Engineering is anticipating participants from 40 and more countries across the globe and the three day conference will provoke Plenary sessions, Keynote speeches, Poster, and Oral presentations. This program provides three days of robust discussions on recent advancements and new strategies for development of new materials for global requirements.

### **YOUNG RESEARCHERS OPPORTUNITY:**

- Establishing their academic and professional relationships.
- Improving their morale and confidence of presenting research in an international platform.
- Interacting with expertise in their respective departments.
- Clearing your inhibitions of adjusting to the foreign environment.
- Providing a holistic experience of academic tourism.

**Our pleasure to meet you in upcoming event...!!!**

**Best Regards**

## About Madrid

Madrid is the capital of Spain, and is home to the Spanish Royal family as well as the Spanish Government. It is a modern metropolitan city and an economical and industrial center of Spain, and, with its population of nearly 3,5 million people, is also the biggest city in Spain. It is located in the centre of the Iberian Peninsula, and is surrounded by mountains and natural parks. Although it is located in the centre of the country, it has traditionally been the hub between different areas of Spain and is therefore connected to all major Spanish cities by train, road or air.

The weather in Madrid varies a lot depending on the season, from hot and dry in the summer, with temperature of approx. 29C- | / 85F- |, to cold (4C- | / 39F- |) and with some rain in the winter.
