Welcome Message

Dear All,

Scientific Federation is delighted to welcome you all to the **3rd World Summit & Expo on Food Technology and Probiotics** during **October 25–26, 2018 at Prague, Czech Republic**.

Food Technology is the Combination of food science techniques, such as selection, preservation, processing, packaging, distribution, and use of safe, nutritious, and wholesome food. It is a integrated approach of applied physical sciences which combines, microbiology, and Food Engineering. Food engineering includes, the application of chemical engineering and agricultural engineering principles to food materials. Food technologists incorporates advanced technical knowledge to make food production cost-effective and flexible commercialization of food products and services.

FoodTech-2018 is anticipating around 300 participants from around the globe and the three day conference will provoke Plenary Sessions, Keynote Speeches, Poster and Oral presentations

FoodTech-2018 Provides Global Platform for Pharma, Biotech, Medical and Healthcare Professionals to Exchange Ideas, Knowledge and Networking at 100+ Meetings International Conferences

Young Researchers Opportunity:

We make sure to support and motivate 'Young Researchers' by:

- Establishing their academic and professional relationships
- Improving their morale and confidence of presenting research in an international platform
- Interacting with expertise in their respective departments
- Clearing your inhibitions of adjusting to the foreign environment
- Providing a holistic experience of academic tourism

Our pleasure to meet you in upcoming event...!!!

Best Regards

Conference Highlights

The Scientific Federation brings you an immense opportunity to be a part of scientific acceleration to world class personalities, young scholars, scientific delegates and young scientists to join in this forum to utilize the expertise and novelties that brings a new era for innovations in the field of Food Technology and Probiotics which brings well versed scrutinizers at one place. It provides a platform to have open discussions, knowledge sharing and interactive sessions with field experts at FoodTech-2018. We request you to submit a brief idea or abstract of your talk/presentation/symposium/workshop according to your session interest.

- Probiotics, Functional Foods in Economy and Business
- Microbial Pathogenesis
- Breaking Innovations in Food Science world
- Probiotics in Obesity and Weight Management
- Probiotics in Veterinary Medicine
- Probiotics in Paediatric nutrition
- Food Safety, Preservation, Quality Standard and Systems Management
- Sustainable Food Security
- Application of Food Technology
- Novel Applications of Probiotics
- Food additives and ingredients in food manufacturing
- Food packaging on nutrition
- Food bioactives on nutrition & food product development
- Food processing industries and practices
- Trends in modern food processing
- Parameters for food processing
- Guidelines for food safety Standards & regulation
- Industrial production and microbial fermentation
- Diet-host interaction and intestinal microbiome signaling

About Prague

Prague, capital city of the Czech Republic, is bisected by the Vltava River. Nicknamed “the City of a Hundred Spires,” it’s known for its Old Town Square, the heart of its historic core, with colorful baroque buildings, Gothic churches and the medieval Astronomical Clock, which gives an animated hourly show. Completed in 1402, pedestrian Charles Bridge is lined with statues of Catholic saints.

Prague is home to a number of famous cultural attractions, many of which survived the violence and destruction of 20th-century Europe. Main attractions include the Prague Castle, the Charles Bridge, Old Town Square with the Prague astronomical clock, the Jewish Quarter, Petřín hill and Vyšehrad. Since 1992, the extensive historic centre of Prague has been included in the UNESCO list of World Heritage Sites.

The city has more than ten major museums, along with numerous theatres, galleries, cinemas and other historical exhibits. An extensive modern public transportation system connects the city. Also, it is home to a wide range of public and private schools, including Charles University in Prague, the oldest university in Central Europe.
