Dear All,

On behalf of Scientific Federation we welcome you all to 3rd World Congress & Expo on Dementia & Neuroscience during November 12-14, 2018 in Toronto, Canada.

Meet the Global Inspiring Speakers and Experts at the following Neuroscience Conferences, to discuss on New Advances in Neurology, Dementia and Brain care to Improve Health & Treatment. All the Neuroscience activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Committee.

Neuroscience is a multidisciplinary knowledge that is disturbed with the study of the organization and function of the nerve organization. It encompasses the evolution, cellular, development and physiology, molecular biology, anatomy and pharmacology of the nerve organization, as well as behavioral, computational and cognitive neuroscience.

Conference Objectives:

- To facilitate opportunities for networking, collaboration and exchange of ideas with internationally renowned leaders in Neuroscience and Dementia research and development.
- To identify research and practice based innovations in optimizing Laser Optics & Photonics and development.
- To debate gaps and priorities for sustainable development in Neuroscience and Dementia research and development.
- To discuss and debate the challenges and opportunities in the new era Neuroscience and Dementia research and development.

We look forward to seeing you in Toronto, Canada...!!!

Best Regards
Organizing Committee

The Scientific Federation brings you an immense opportunity to be a part of scientific acceleration to world class personalities, young scholars, scientific delegates and young scientists to join in this forum to utilize the expertise and novelties that brings a new era for innovations in the field of Dementia & Neuroscience which brings well versed scrutinizers at one place. It provides a platform to have open discussions, knowledge sharing and interactive sessions with field experts at Neuroscience-2018. We request you to submit a brief idea or abstract of your talk/presentation/symposium/workshop according to your session interest.

Organizing Committee Members

Ljudmila Stojanovich
Belgrade University, Serbia

Giuseppe Scalabrino
University of Milan, Italy

Jerzy Leszek
University in Wroclaw, Poland

Joseph M. Rifkind
National Institute on Aging, USA

Krupa Torne
Lokmanya Tilak Municipal Medical College, India

Muhammad Akbar Malik
Bristol University, UK

Deepa Vinoo
New York City Health, USA

About Toronto

Toronto is the capital of the Canadian province of Ontario. It is located within the Golden Horseshoe in Southern Ontario on the northern shore of Lake Ontario. With 2,731,571 residents in 2016, it is the largest city in Canada and fourth-largest city in North America by population. Also in 2016, the Toronto census metropolitan area (CMA), the majority of which is within the Greater Toronto Area (GTA), had a population of 5,928,040, making it Canada’s most populous CMA. A global city, Toronto is a Centre of business, finance, arts, and culture, and is recognized as one of the most multicultural and cosmopolitan cities in the world.

Indigenous peoples have travelled through and inhabited the Toronto area, situated on a broad sloping plateau interspersed with rivers, deep ravines, and urban forest, for more than 10,000 years. After the broadly disputed Toronto Purchase, when the Mississaugas surrendered the area to the British Crown, the British established the town of York in 1793 and later designated it as the capital of Upper Canada. During the War of 1812, the town was the site of the Battle of York and suffered heavy damage by U.S. troops. York was renamed and incorporated as the city of Toronto in 1834, and became the capital of the province of Ontario during Canadian Confederation in 1867.

Important Dates

Abstract Submission Opens: January 02, 2018
Registration opens: January 15, 2018
Early bird registration: May 18, 2018
On spot registration: November 12, 2018

Venue

Holiday Inn Toronto International Airport
970 Dixon Road, Toronto, ON M9W 1J9, Canada
