Welcome Message

Dear All,

Scientific Federation like to take this opportunity to welcome all of you to **International Congress and Expo on Earth Science & Geo Science** which is to be held during **August 13-14, 2018 Amsterdam, Netherlands**. Through our theme 'Stimulating and Analyzing the Changes of Earth & Climate' the conference will analyze the recent advancements and new modes that can be enforced to the research to take Earth Science & Geo Science, one step further.

Geology or Geological Sciences is the study of the origin, evolution, structure and behavior of our planet Earth. This science mainly deals with the earth's composition, that is, its materials, processes, systems, resources and physical forces and also how they change over time. This global view extends to organisms, natural resources and environment that make up the Earth as well as exploring other planets and our solar system. Therefore geology can also be referred as Earth Science.

Conference Objectives:

- To facilitate opportunities for networking, collaboration and exchange of ideas with internationally renowned leaders in Earth Science & Geo Science.
- To identify research and practice based innovations in optimizing Earth Science & Geo Science.
- To debate gaps and priorities for sustainable development in optimizing Earth Science & Geo Science.
- To discuss and debate the challenges and opportunities in the new era of optimizing Earth Science & Geo Science reforms.
- To identify opportunities for evidence-based practice in optimizing Earth Science & Geo Science.

We look forward to seeing you in Amsterdam in August, 2018...!!!

Best Regards

Organizing Committee

Conference Highlights

The Scientific Federation brings you an immense opportunity to be a part of scientific acceleration to world class personalities, young scholars, scientific delegates and young scientists to join in this forum to utilize the expertise and novelties that brings a new era for innovations in the fields of Earth Science & Geo Science which brings well versed scrutinizers at one place. It provides a platform to have open discussions, knowledge sharing and interactive sessions with field experts at Earth Science & Geo Science -2017. We request you to submit a brief idea or abstract of your talk/presentation/symposium/workshop according to your session interest.

- Earth Evolution Sciences
- Geosciences
- Geology
- Global Warming
- Climate Change
- Meteorology
- Geohazards
- Geophysics
- Mineralogy
- Petrology
- Geochemistry
- Geomorphology
- Paleontology
- Stratigraphy
- Structural Geology
- Economic Geology
- Geohydrology
- Engineering Geology
- Environmental Geology
- Remote Sensing & GIS Applications in Earth Sciences
- Exploration, Development and Production of Earth Resources
- Mineral Processing, Waste Management & Recycling

For Abstracts Submission: <http://scientificfederation.com/earth-science-2018/abstract-submission.php>

Organizing Committee Members

Giuseppe Gambolati
University of South Florida
USA

Vincent N. Ojeh
Centre 4 Genders, Climate Education
& Solutions (C4GCES)

Gopal Krishan
National Institute of
Hydrology India

Yousef Nazzal
Zayed University
UAE

Jaime Senabre
Director, SINIF
Spain

Aidy Ali
National Defence University of Malaysia
Malaysia

Solomon Addisu
Bahir Dar University
Ethiopia

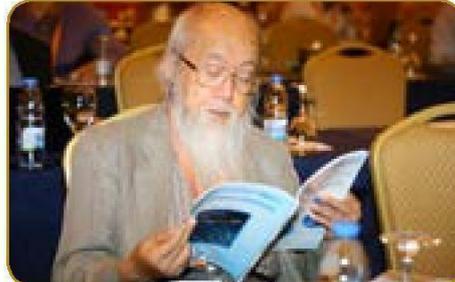

Debi Prasad Tripathy
National Institute of
Technology India

About Amsterdam

Amsterdam Dutch: (About this sound listen)) is the capital and most populous municipality of the Netherlands. Its status as the capital is mandated by the Constitution of the Netherlands,[12] although it is not the seat of the government, which is The Hague.[13] Amsterdam has a population of 851,373 within the city proper, 1,351,587 in the urban area,[14] and 2,410,960 in the Amsterdam metropolitan area.[9] The city is located in the province of North Holland in the west of the country. The metropolitan area comprises much of the northern part of the Randstad, one of the larger conurbations in Europe, with a population of approximately 7 million.[15] Amsterdam's name derives from Amstelredamme,[16] indicative of the city's origin around a dam in the river Amstel. Originating as a small fishing village in the late 12th century, Amsterdam became one of the most important ports in the world during the Dutch Golden Age (17th century), a result of its innovative developments in trade. During that time, the city was the leading centre for finance and diamonds.[17] In the 19th and 20th centuries the city expanded, and many new neighborhoods and suburbs were planned and built. The 17th-century canals of Amsterdam and the 19–20th century Defence Line of Amsterdam are on the UNESCO World Heritage List. Since the annexation of municipality Sloten in 1921 by the municipality of Amsterdam, the oldest historic part of the city lies in Sloten (9th century).

Important Dates

Abstract Submission Opens: August 1, 2017

Registration opens: August 8, 2017

Early bird registration: May 25, 2018

On spot registration: August 13, 2018

Venue

Amsterdam, Netherlands
