## Welcome Message

Dear All,

Scientific Federation like to take this opportunity to welcome all of you to International Summit on Fisheries and Aquaculture which is to be held during August 13–14, 2018 Amsterdam, Netherlands. Through our theme 'Advancing & Expanding Aquaculture Sector Focused on Developmental, Toxicological and Transgenic Scientific Research', the conference will analyze the recent advancements and new modes that can be enforced to the research to take Fisheries and Aquaculture, one step further.

Fisheries and Aquaculture Conference that brings together a unique and International mix of experts, like aquaculture engineers, researchers and decision makers both from academia and industry across the globe to exchange their knowledge, experience and research innovations.

### Conference Objectives:

- To facilitate opportunities for networking, collaboration and exchange of ideas with internationally renowned leaders in Fisheries and Aquaculture.
- To identify research and practice based innovations in optimizing Fisheries and Aquaculture.
- To debate gaps and priorities for sustainable development in optimizing Fisheries and Aquaculture.
- To discuss and debate the challenges and opportunities in the new era of optimizing Fisheries and Aquaculture reforms.
- To identify opportunities for evidence-based practice in optimizing Fisheries and Aquaculture.

**We look forward to seeing you in Amsterdam in August, 2018...!!!**

Best Regards  
**Organizing Committee**

## Conference Highlights

The Scientific Federation brings you an immense opportunity to be a part of scientific acceleration to world class personalities, young scholars, scientific delegates and young scientists to join in this forum to utilize the expertise and novelties that brings a new era for innovations in the fields of Fisheries & Aquaculture which brings well versed scrutinizers at one place. It provides a platform to have open discussions, knowledge sharing and interactive sessions with field experts at Fisheries and Aquaculture –2018. We request you to submit a brief idea or abstract of your talk/presentation/symposium/workshop according to your session interest.

- Aquaculture and Bio system Research
- Aquatic Organism's By-products and Their Applications
- Aquaculture Related Diseases and Health Management
- Diversification in Aquaculture
- Aquatic Immunology
- Aquatic Physiology
- Aquaculture Environment Interactions – Measuring, Modelling and Mitigation
- Aquaculture Law and Policy
- Aquatic Toxicology
- Fish Farms: Planning a New One
- Fish Capture and Fishing Gears
- Fish Pathology & Physiology
- Aquaculture Industry: Strategic Framework
- Aquatic Ecosystem and Aqua Farming Methods
- Fish Habitat Ecology and Conservation
- Comparative Biology of Aquatic Species
- Fisheries Statistics, Information and Education
- Ecosystems, Fisheries Biology and Aquaculture
- Fisheries and Aquaculture Resources
- Fisheries Technology and Engineering Applications
- Post-Harvest Techniques and Aquaculture Products
- Fish Trade and Commercial Implications
- Sustainable Methods of Aquaculture Industries
- Global Trends and Issues of Fisheries and Aquaculture

## Organizing Committee Members

**Tiantian Zhang**  
Bournemouth University, UK

**George Minos**  
Alexander Technological Educational  
Institute, Greece

**Abhijit Mitra**  
University of Calcutta, INDIA

**VO VAN NHA**  
Ministry Agriculture and Rural  
Development, Vietnam

**Ayşe Gündoğdu**  
Sinop University, Turkey

**Kazem**  
Iran Veterinary Organization, Iran

**Mubarak Eisa Abdelrahman Tibin**  
University of Bahri, Sudan

**Shapour Kakoolaki**  
Iran Fisheries Science Research  
Institute, Iran

## Glimpses of Previous Conferences

## About Amsterdam

Amsterdam Dutch: (About this sound listen)) is the capital and most populous municipality of the Netherlands. Its status as the capital is mandated by the Constitution of the Netherlands,[12] although it is not the seat of the government, which is The Hague.[13] Amsterdam has a population of 851,373 within the city proper, 1,351,587 in the urban area,[14] and 2,410,960 in the Amsterdam metropolitan area.[9] The city is located in the province of North Holland in the west of the country. The metropolitan area comprises much of the northern part of the Randstad, one of the larger conurbations in Europe, with a population of approximately 7 million.[15]

Amsterdam's name derives from Amstelredamme,[16] indicative of the city's origin around a dam in the river Amstel. Originating as a small fishing village in the late 12th century, Amsterdam became one of the most important ports in the world during the Dutch Golden Age (17th century), a result of its innovative developments in trade. During that time, the city was the leading centre for finance and diamonds.[17] In the 19th and 20th centuries the city expanded, and many new neighborhoods and suburbs were planned and built. The 17th-century canals of Amsterdam and the 19–20th century Defence Line of Amsterdam are on the UNESCO World Heritage List. Since the annexation of municipality Sloten in 1921 by the municipality of Amsterdam, the oldest historic part of the city lies in Sloten (9th century).
