

International Conference on

# Electronics & Electrical Engineering

July 26-27, 2018 at Barcelona, Spain

*Theme: Recent Trends and Future Technology in  
Electrical and Electronics Engineering*

**Scientific Federation**

T: +91-779-979-0001/+91-779-979-0002

## Welcome Message

Dear All,

Scientific Federation is pleased to announce **International Conference on Electronics & Electrical Engineering** during **July 26–27, 2018 at Barcelona, Spain**. Electronics & Electrical Engineering is broad term, mainly it work on components, devices and systems that use electricity and magnetism. The scientific program focuses on current advances in the research, production and use of Electronics & Electrical Engineering with particular focus on their roles in maintaining academic level and elevating the science level.

**ICEEE-2018** looks for significant contributions to the engineering in theoretical and practical aspects. The aim of the conference is to provide a platform to researchers and practitioners from both academia as well as industry to meet and share cutting-edge development in the field. The main theme of the conference is **“Recent Trends and Future Technology in Electrical and Electronics Engineering”**.

### Conference Objectives:

- To facilitate opportunities for networking, collaboration and exchange of ideas with internationally renowned leaders in Electronics and Electrical Engineering research and development.
- To identify research and practice based innovations in optimizing Electronics and Electrical Engineering research and development.
- To debate gaps and priorities for sustainable development in optimizing Electronics and Electrical Engineering research and development.
- To discuss and debate the challenges and opportunities in the new era of optimizing Electronics and Electrical Engineering research reforms.
- To identify opportunities for evidence-based practice in optimizing Electronics and Electrical Engineering research and development.

**We look forward to seeing you in Barcelona in July, 2018...!!!**

Best Regards

**Electronics & Electrical Engineering Organizing Committee**

## Conference Highlights

The Scientific Federation brings you an immense opportunity to be a part of scientific acceleration to world class personalities, young scholars, scientific delegates and young scientists to join in this forum to utilize the expertise and novelties that brings a new era for innovations in the field of Electronics & Electrical Engineering which brings well versed scrutinizers at one place. It provides a platform to have open discussions, knowledge sharing and interactive sessions with field experts at ICEEE-2018. We request you to submit a brief idea or abstract of your talk/presentation/symposium/workshop according to your session interest.

- Advanced Power Semiconductors
- Analogue and Digital Signal Processing
- Distributed Generation, Fuel Cells and Renewable Energy Systems
- Electrical Machinery and Electrical Apparatus
- Electro Technologies
- Electromagnetic Compatibility
- High Voltage and Insulation Technology
- Intelligent Control Systems
- Materials for Electrotechnics
- Measuring Technology and Instruments
- Nuclear Energy
- Power Electronics and Power Drives
- Power Engineering Education
- Power Market
- Power Optimization
- Power System and its Automation
- Power System Reliability and Security
- Power Systems Communication

For Abstracts Submission: <http://scientificfederation.com/electrical-engineering-2018/abstract-submission.php>  
Conference sessions will bring you the latest strategies, research, and best practices to improve outcomes through quality, safety and staffing.

## Organizing Committee Members

**Ronald A. Coutu, Jr**  
Marquette University  
USA

**David Hacks**  
Texas A&M University  
USA

**Mehmet Celenk**  
Ohio University  
USA

**M. M. Azizur Rahman**  
Grand Valley state University  
Canada

**Jiann-Shiou Yang**  
University of Minnesota  
USA

**Abul K.M. Azad**  
Northern Illinois University  
USA

**Reza Nekovei**  
Texas A&M University  
USA

**Kenji Suzuki**  
Illinois Institute of Technology  
USA

**Hao Yang**  
Wayne State University  
USA

**Ann Reddipogu**  
The Robert Gordon University,  
UK

## About Barcelona

Barcelona, the cosmopolitan capital of Spain's Catalonia region, is known for its art and architecture. The fantastical Sagrada Família church and other modernist landmarks designed by Antoni Gaudí dot the city. Museu Picasso and Fundació Joan Miró feature modern art by their namesakes. City history museum MUHBA, includes several Roman archaeological sites.

Barcelona, located at the Mediterranean sea in the very north of the Spanish coast, is certainly the most cosmopolitan and economically most active city in this country. It has always proved its will to be modern, to follow the latest international tendencies or be ahead of them. To the tourist this is evident specially in its architecture, which so well reflects the general approach to life in this always pulsating city. Of course, Barcelona has an old history, and there are monuments of Romanesque, Gothic and Renaissance periods or still before, but most characteristic is what has been built during the last, say, 100 years. Barcelona has been a center of Modernist architecture and is distinguished specially by the works of genial Antoni Gaudí, who together with his great contemporaries gave new and exciting looks to it, but has remained since then at the top of modernity.

### Important Dates

Abstract Submission Opens: August 15, 2017

Registration opens: August 19, 2017

Early bird registration: November 27, 2017

On spot registration: July 26, 2018

### Venue

Barcelona, Spain
