

3rd International Conference on Women Health and Breast Cancer

May 30-31, 2019 at Nice, France

Dear Colleagues,

Keeping the tradition of every year as well as the 'President' for '3rd International Conference on Women Health and Breast Cancer (Women Health-2019), which will be held during May 30-31, 2019 at Nice, France, I think this event is the ideal opportunity for information, communication and the initiation of interesting collaboration projects that open up new horizons and thus form a gateway to a better future.

Personally, I invite you TOGETHER to make Congress a high-level scientific meeting, hospitality, friendship and joy. The themes to be discussed at the "Women Health and Breast Cancer" session are professional experiences that can be shared with all workplace colleagues and will be needed to continually improve work by increasing the level of the quality system of the medical act.

The events have topics in Conference Sessions as "Breast Cancer, present and perspective, Reproductive Health, Gynecology and Obstetrics, Heart Disease in Women, Nutritional Supplements, Diabetes and Metabolism, Kidney Disease in Women, Lung Cancer, Alzheimer's disease, Endocrine pathology in the diversity of cancer tumors and subjects with variation ". The full themes of Congress aim to develop and evaluate strategies to prevent metabolic diseases, focusing on pathophysiology of diseases. All of these are designed to develop an interactive climate to discuss the latest scientific breakthroughs in the field of clinical medicine,".

You're welcome!

Dr. Aurelian Udristioiu
President of Women Health-2019
Titu Maiorescu University, Romania
